Regarding: QA Automation Engineer

Dear Sir/Madam,

I am writing this motivational letter to showcase my skills as a QA Automation Engineer. I am confident that I possess the necessary skills and expertise to make a valuable contribution to your organization.

I have extensive experience working with multiple programming languages such as Java, JavaScript, C#, and Gherkin, and have a strong understanding of automation testing tools such as Robot Framework, Selenium, Cucumber, Cypress, JUnit, and TestNG. Additionally, I have worked with various CI/CD tools such as Jenkins, Maven, and Git/GitHub, which have helped me in developing robust automation frameworks for my projects.

My proficiency in SQL & JDBC and Postman has helped me in designing and executing complex test cases for back-end and API testing. Additionally, my experience in working with Selenium WebDriver and REST Assured Library has enabled me to develop efficient and effective UI and API automation frameworks. I have also worked with JIRA & JIRA-Xray.

Furthermore, I have experience in implementing Data-Driven, Behavior-Driven, and Hybrid Frameworks for automation testing, which has enabled me to develop test suites that are reusable and maintainable.

In my previous role as an e-Commerce Specialist, I provided sales consulting services for a company that sells its articles on Amazon and eBay, AutoDoc. This experience has helped me in identifying the pain points of customers and providing them with effective solutions that have resulted in increased sales and customer satisfaction.

Lastly, I have extensive experience working with Agile Development and Scrum, which has helped me in collaborating effectively with cross-functional teams and delivering high-quality products within tight deadlines.

After reviewing my CV, I hope that you will find me to be a competent and competitive candidate for the position. I look forward to discussing how my unique skills can benefit your organization. Please feel free to contact me at **+31 628788948** or via email at **[info.emredursun@gmail.com]** to schedule a meeting time that is convenient for you.

Thank you for your consideration, and I look forward to hearing from you soon.

Best regards,
Emre Dursun
